

## Job Opening:

# Project Geologist

**Application deadline: April 20, 2023**

**Employer:** Archer, Cathro & Associates (1981) Limited

**Job Location:** Whitehorse, YT

**Job Type:** Field based

**Industry:** Exploration Geology

**Salary:** Based upon experience

**Start Date:** June 1, 2023

### Job Description:

A project geologist provides technical geological leadership and support to mineral exploration projects of all scales. This person will play an important role in ensuring a smooth operation of small fly camps to larger drill camps, depending on need. The job may include work in an office environment as well as remote mineral exploration camps.

### Job Duties:

- Working with clients to design and implement mineral exploration programs
- Geologic mapping and prospecting
- Logging core, orienting core, QAQC, sample preparation and data management
- Report writing and communicating results to clients

### Key Requirements:

- Undergraduate Degree in geology
- Experience using GIS software such as QGIS, ArcMap, MapInfo, Leap Frog
- Excellent communication and writing skills
- Demonstrated geologic mapping skills
- Ability to work with, and interpret geologic information including but not limited to structural, geochemical and geophysical data
- Experience logging core, knowledge of orientated core an asset
- Experience managing a team
- Experience working in remote wilderness areas

## About Archer Cathro

Archer Cathro is a geological consulting firm with offices in both Vancouver and Whitehorse. We have been working and exploring in western Canada since 1965 and have built a team of Cordilleran geological experts with a proven track record of successfully managing exploration projects of all sizes. Our expertise includes not only mineral exploration but also permitting, ESG and logistics.

We value our employees and offer a safe and open working environment free of discrimination.
